

PAAS Bratislava General Parking Policy

PAAS zones have their rules established based on the approved General Binding Regulation of the Capital of the Slovak Republic Bratislava No. 3/2025 on temporary parking of motor vehicles. Regulated zones are marked with traffic signs as well as information boards of the Bratislava Parking Assistant PAAS. In the regulated zone, parking is only allowed in designated parking spaces or parking strips (marked in white).

Stopping on the road, sidewalk, or paved surface where no parking space is marked is not permitted (even when the zone is not charged – it is always only permitted to park in a marked parking space/strip).

During zone charging times, parking in the zone is only allowed for holders of appropriate parking permits or after paying short-term parking fees.

Free parking for vehicles of holders of disability parking permits for persons with severe disabilities – EU model is possible in reserved disability spaces. Motorcycle parking is free of charge.

Traffic sign in the zone

Traffic sign no. 277 marks the beginning of the zone, in which parking of vehicles is allowed only in marked parking lots and only under certain conditions indicated on the supplementary board.

Traffic sign marking the area, where only vehicles with a resident card are allowed to stop or park.

Supplementary information blue PAAS board means resident parking RU1 code means that it is a parking place for an owner of resident cards/subscription card for the Ružinov 1 zone.

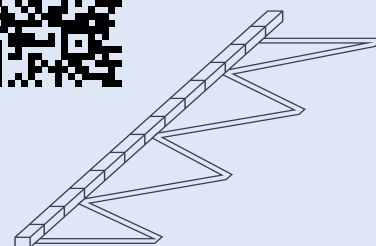

Traffic sign no. 278 marks the end of the parking zone.

Sign marking the area (inner courtyard), where only vehicles with a resident card/subscription card are allowed to park and parking is allowed only in marked parking lots.

Sign marking the area (inner courtyard), where only vehicles with a resident card/subscription card are allowed to park and parking is allowed also outside the marked lots.

A zig-zag line is a section which allows short-term stopping, for example for a courier, food delivery or getting on/off a vehicle, taxi, etc.

- supplementary information green PAAS board means non-resident parking

- information board contains a zone numerical code and a parking hourly rate

- In chargeable time you may park in the regulated zone only with the given authorization
- Residents with their resident parking card.
- Visitors after having paid an hourly rate.
- Visitors with another authorization – parking with a bonus card or a visitor card.
- Each zone has its individual regulation or chargeable time. Clear map of zones with parking fees and marked visitors and residential parking lots: www.paas.sk/mapa-zon/.

Resident PAAS

- A resident with permanent residence in an apartment in a regulated zone with a valid relationship to a personal motor vehicle (owner, company vehicle for private purposes, operational leasing, rental)
- They are allowed to park also in places for residents and in regulated inner courtyards.
- A maximum of 3 resident parking cards can be registered per apartment or house unit in the regulated zone. Permanent residence must be in a residential area (not an apartment/non-residential area).

Visitor/Non-resident

- A non-permanent resident of an apartment in a regulated zone may park only in visitor spaces
- Pay a short-term parking fee depending on the zone
- May use a bonus, visitor or discount parking card for parking

Parking Cards

Parking cards may be registered on-line via www.paas.sk/prihlasenie

As the first step, you need to register in the information system (Park Dots). Please fill in your email, choose a password, and a registration confirmation request will be sent to your email. After clicking on the registration confirmation, you will continue directly with filling out the parking permit application, entering personal data and choosing the type of parking permit you are interested in. Applicant data is verified directly in state registers - Register of Natural Persons, Register of Legal Entities, Register of Addresses, Real Estate Cadastre, and National Vehicle Register. If any data cannot be verified in the state register, the applicant is asked to supplement attachments to the application (e.g.,

vehicle registration certificate, etc.).

Application approval usually takes place automatically; in case manual approval is needed, it may take several hours or days. During cadastre outages, applications must be approved manually, and the time to issue a permit is extended. After application approval, for paid permits, it is necessary to pay the appropriate fee for the parking permit. The fastest form of payment is online card payment. In addition, bank transfer payment or in-person payment at a client center is available. The permit is valid only after the payment is credited. A parking permit application can also be submitted in person at a client center.

List of the Client Centres

- Customer Center at Ondrej Nepela Winter Stadium, Odbojárov 9 (entrance from Trnavská Road)
- Magistrate's Office, Primaciálne námestie
- Local Office in Rača, Kubačova 21
- Local Office in Ružinov, Mierová 21
- Local Office Staré Mesto, Vajanského nábrežie 3

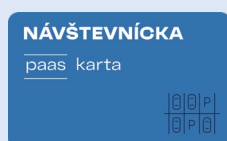

Parkovacie karty

Resident Parking Card

- Conditions for issuance according to the General Binding Regulation: permanent residence in the given PAAS zone, relationship to property and vehicle.
- Fees: €39/year – 1st permit per apartment, €150/year – 2nd permit per apartment, €500/year – 3rd permit per apartment (maximum 3 permits per apartment).
- Temporary license plate change: maximum four times per 365 days, for a total length of 21 days (e.g., replacement vehicle during service).
- Permanent vehicle change can be arranged online in the ParkDots account permits.parkdots.com through the permit details, by adding an inactive vehicle - relationship to vehicle holder, spouse of vehicle holder, mark as active and delete the old one. For other relationships, in person at the client center.

Visitor Parking Card

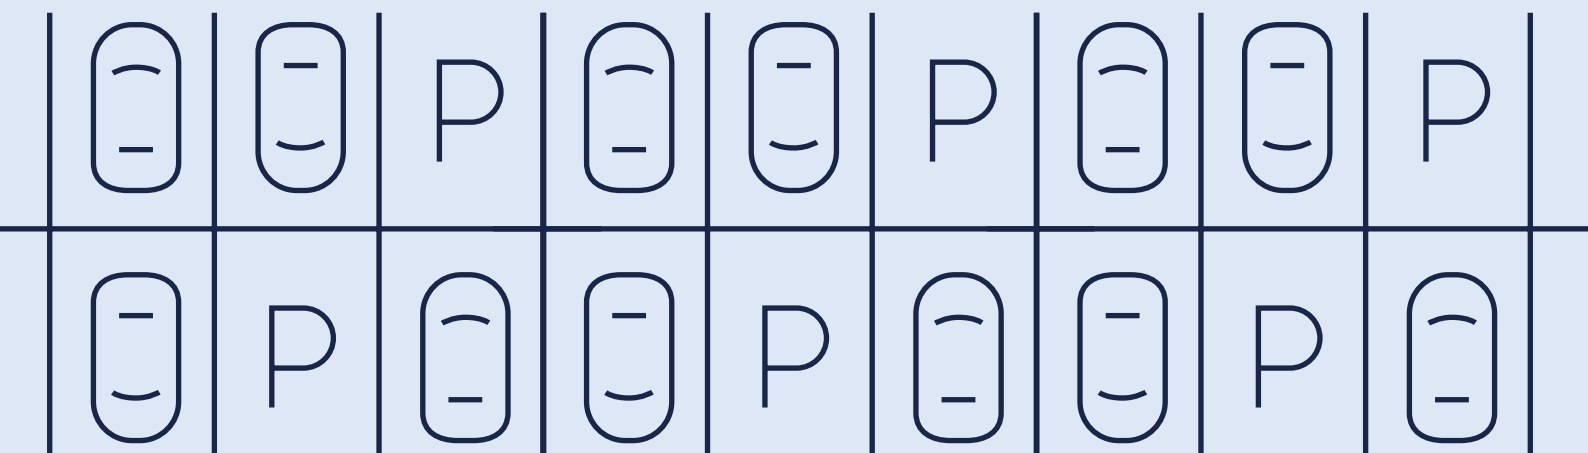

- Not intended for parking your vehicle, but for visitors
- Valid for the zone where you are a resident
- Condition is permanent residence in the zone and relationship to property
- Issuance is free of charge
- Maximum one permit per apartment
- Validity 100 hours/year (200 hours/year if you do not have a Resident Parking Permit issued)
- The license plate of the visitor's vehicle must be registered each time the visitor parks through the application, which will then deduct the time credit (100-200 hours/year)

Abonent Parking Card

- Issuance conditions according to VZN: intended for legal entities with a registered office / operation / franchise in the zone, or for natural persons - property owners without permanent residence in the zone and a relationship to the vehicle according to VZN.
- Fee according to the zone: €500 - €1600/year. Max. 3 cards per zone for one applicant.
- Temporary change of license plate: max. four times in 365 days, for a total of 21 days (e.g. replacement vehicle during service).
- Permanent change of vehicle can be made online in the ParkDots account permits.parkdots.com via card details, by adding an inactive vehicle - relationship to the vehicle holder, spouse of the vehicle holder, mark as active and delete the old one. In case of another relationship, in person at the client location.
- Change of license plate without changing the vehicle (e.g. loss of license plate) – request at paas@bratislava.sk or at the client site.
- Multiple inactive license plates can be assigned to one card – only one active at a time.
- Card cancellation + refund of the aliquot amount (over €5) must be requested electronically in the ParkDots account permits.parkdots.com via card details

(*) Both resident and subscriber parking cards are valid only in the zone for which they are issued. You park in any free space for residents/abonents or visitors in the zone without having to pay an additional parking ticket.

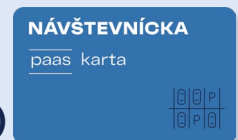

Bonus Parking Card

- Intended for parking outside your residential zone
- You park with your vehicle in any available parking space in PAAS zones in spaces available for visitors (zone map: www.paas.sk/mapa-zon/ – switch display to Visitor = green streets)
- Not valid in the most congested sections (sections charged at €2/hour, mainly in the city center), except on weekends and holidays when it is also valid in zone SMO
- Condition is permanent residence in Bratislava, does not have to be in a regulated zone
- Fee €10/year
- Maximum three cards per applicant for different vehicles
- Validity 2 hours of free parking DAILY
- Each time you park, you need to start using the bonus 2 hours in the application (buy a ticket that is free for the first 120 minutes)

Visitor Parking Card (for disabled citizens)

- is not intended for parking your vehicle, but for visits
- is valid for one zone
- the condition is permanent residence in the zone, a relationship to the property and being a holder of a FO card with severe disability with assistance + provide a copy of the legally valid decision on granting a financial allowance for personal assistance or care or a copy of the contract on providing home care services with a public or private provider
- the issue is free
- maximum one card per apartment
- validity 750 hours/year
- the license plate number of the visitor's vehicle must be registered with each parking of the visitor via the application, in which you will then be deducted a time credit (750 hours/year)

Discount cards

Discount Parking Card for Handicapped Person

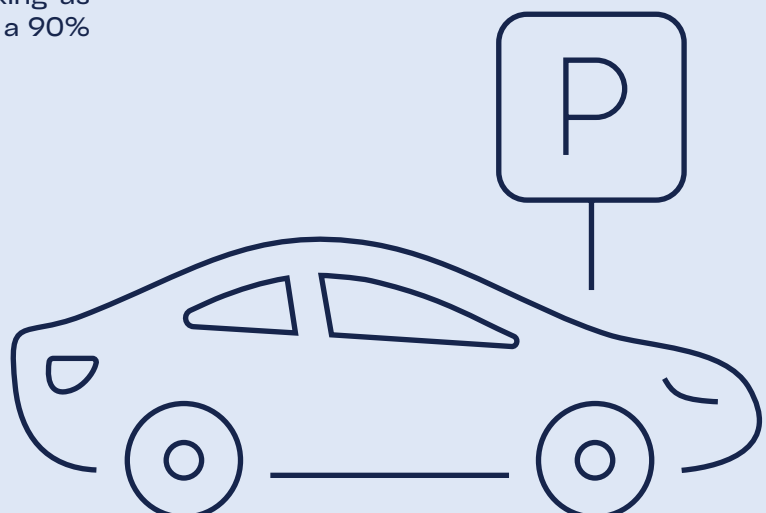

- Intended for parking a vehicle for a severely handicapped person with a 90% parking fee discount.
- You have to be a holder of a parking card for severely handicapped person EU model and have relationship to a vehicle.
- Issued free of charge, upon request.
- You have to buy a ticket for each parking via the application, parking machine or at parking as sistant, from the price of which you get a 90% discount.

Discount Parking Card for an EV

- Intended for parking electric vehicles except for hybrid vehicles with a 50% parking fee discount.
- Issued free of charge, upon request.
- You have to buy a ticket for each parking via the application, parking machine or at parking as sistant, from the price of which you get a 50 % discount.

Information on Parking for People with Disabilities and Discount parking card

A person with severe disabilities (disability) can park in reserved spaces for people with disabilities without any registration and also has the option to request the road administrator for additional reservation of a parking space. When parking outside reserved spaces, it is necessary to park with an appropriate parking permit or after paying short-term parking fees.

Discount card for disabled citizens

Holders of a parking permit for persons with severe disabilities – EU model can apply for a disability discount parking permit, which allows parking with a 90% discount on the hourly parking rate. The application is submitted via www.paas.sk or at a client center. The discount permit is issued for a specific license plate, to which it is necessary to prove the relationship specified in the General Binding Regulation. The discount is automatically applied when purchasing a parking ticket for the given license plate in the application, parking machine, or from a parking assistant.

Discount parking card for social service providers

Organizations providing social services can obtain a discount parking permit that allows parking with a 90% discount on the appropriate parking ticket fee. For the discount parking permit for social service providers to be issued, the applicant must meet the following conditions:

- **Social service providing organization:** Must be an organization providing social services in the territory of the capital city, or an accredited entity in the field of social-legal protection of children and social curatorship.
- **Relationship to motor vehicle:** The organization must be the holder of a motor vehicle or have an rental agreement or other agreement for paid use of a motor vehicle with a legal entity authorized to rent motor vehicles.

Multiple discount parking cards may be issued to one applicant, provided that they demonstrate the need to use the vehicle to perform their activities.

Validity and issuance of a discount parking card

The discount parking card for social service providers is valid for one year from the date of its issue. Issuance of the card is free of charge and the application is submitted via the website www.paas.sk or at a client location. When applying, it is necessary to submit an identity card, the original certificate of registration of the motor vehicle (so-called large technical certificate) and, in the case of motor vehicles older than 4 years, also a document on technical inspection of the vehicle (STK) and a document on emission control of the vehicle.

For more information, visit the website www.paas.sk or the respective local authority.

Extension of validity of parking cards

The parking card can be extended 30 days before its expiration date directly in the ParkDots account. permits.parkdots.com

Holders are also informed about the approaching expiration date of the card and the possibility of its extension several times before its expiration date by e-mail. Even when extending parking cards, the relationship to the vehicle and the property is verified, and applicants may be asked to attach attachments if these facts cannot be verified automatically from state registers.

If the card is not extended by the end of its validity, a new application for a parking card must be submitted.

Payment via Mobile Applications

6 different applications are available:
PAAS, ParkDots, Hopin, Ubian, EasyPark, and Bmove.

General Procedure for Purchasing a Parking Ticket:

- Download and install a mobile application from the list below.
- Enter your vehicle's license plate number.
- On the map in the application, select the section (street) where you parked or enter the parking section code. The section code is a four-digit number found on the zone map by clicking on a specific street as well as on green information boards in regulated zones.
- Enter the parking duration, i.e., the time until which you plan to park. The minimum paid transaction is for a 15-minute parking ticket; subsequently, it is possible to choose and pay for parking time in minute intervals.
- Before making the payment, check that you have entered the correct vehicle license plate, correct parking section code, date and time.
- Make the payment after entering details from your payment card, or you can use time credit from your bonus parking permit or by using a visitor parking permit.

List of current applications can be found at www.paas.sk/platba.

Parking Tickets

General Information about Parking Ticket

- A parking ticket is electronic, no need to put in behind your windshield.
- A parking ticket is checked digitally by scanning vehicle registration number of a parked vehicle.
- A parking ticket must be purchased in chargeable time in the given zone.
- A parking ticket is valid from its purchase (payment) to the time you specified when purchasing it.
- If you leave a parking lot before your parking ticket expires, an aliquot amount for unused parking time will not be reimbursed.
- Before payment, check the data you entered, namely vehicle registration number, section code, parking date and time.
- You get an e-email with an electronic payment receipt.
- If you buy a parking ticket via a parking machine, parking assistant or facility, you receive your payment receipt physically.

Other payment options

- In addition to payment via mobile applications, you can also pay for hourly parking via SMS, parking machines, at partner establishments or at parking assistants. Their locations can be found on the zone map: : www.paas.sk/mapa-zon/.
- Parking machines can only be paid by credit card.
- You can pay for parking by credit card or in cash at a parking assistant.
- You can pay for parking by credit card or in cash at partner locations.
- From 2024, parking ticket payment will be possible via SMS. Simply send an SMS in the format section code, license plate number and number of hours to 2200. The price depends on the location, follow the green zone signs. The price of the SMS includes a service fee of 20% of the price of the parking ticket.

Parking control and fines

An important part of parking regulation is also control. When controlling parking, the so-called objective liability is applied. This allows the city police, or rather trained controllers, to solve violations also through photo/video documentation, the physical presence of the driver/owner of the vehicle is no longer necessary, which speeds up the control system.

Improper parking includes:

- Parking without a paid hourly fee.
- Parking in wrong places (outside the marked boxes/lanes in the zone).
- Non-resident parking in places only for residents.

In these cases an orange sticker is put on a motor vehicle by an MPS' s controller informing an offender about a committed administrative offense and that a report has been made.

Yellow stickers are used in newly-opened zones (generally for the first days after the opening of the zone) and are informative, they warn that traffic rules have been violated and a fine may be imposed next time.

Each report is also checked by an administrative body of MsP, whether the substance of the administrative offense has actually been fulfilled, so an orange sticker on a motor vehicle does not automatically mean a fine. The administrative body of MsP examines also the time interval between a fine was imposed and a parking ticket purchased, a short time interval is tolerated and in such case the administrative body does not send an order to impose a fine for an administrative offense (hereinafter the "order").

- If the administrative body of MsP considers a report justified, an offender is sent an order within two years of the offense being committed. *The Capital City of the Slovak Republic, Bratislava, imposes fines under Sec.46 and Sec.47 of Act No. 71/1967 Coll. on Administrative Procedure and under Sec.139(1) of Act No. 8/2009 Coll. on Road Traffic and amendments to some regulations.*

The administrative body of MsP delivers the order to impose a fine to a vehicle holder's permanent address or to a company's registered seat according to the Commercial Reg-

ister of the Slovak Republic, if a company is a holder. The order cannot be delivered by an e-mail. The order is delivered only in writing or to the activated electronic mailbox.

A 15-day period commences upon the receipt of the order, during which an offender may file an appeal with the administrative body of MsP issuing the order. Such appeal will include all facts that may lead to the administrative body of MsP evaluating whether the fine will be imposed or annulled. An offender shall obey the information in the delivered order.

If an offender is aware of their misconduct, they may pay a fine of EUR 52 (2/3 of the imposed fine) instead of the original EUR 78 within 15 days from the delivery of the order. Neither PAAS nor the Capital City of the Slovak Republic, Bratislava, determine the fine amount, it is specified in the Traffic Act.

If a party to the proceeding fails to use the opportunity to pay 2/3 of the imposed fine within the given period, they shall pay it in full within 15 days from the validity of the order. **PLEASE NOTE!** The order against which an appeal has not been filed in time has the effects of a valid decision.

If the administrative body of MsP establishes that an appeal does not meet conditions given in instructions, it will dismiss it. Dismissal of an appeal does not invalidate the order - a fine shall be paid. A party to the proceeding will be informed about dismissal.
